

MAKES SOME CHARGES IN THE RIVERVIEW PARK CASE

In a petition to put Riverview park in the hands of receivers, Mrs. Augusta Miller, 1450 Addison st., a stockholder, accuses William and George Schmidt and R. D. and L. C. Whitman of the company with fraud and conspiracy.

She says they created \$7,500 jobs for the Schmidts, bought an auto with the company's funds and ran a \$1,000 taxi bill.

It is hard to say what action will be taken on Mrs. Miller's petition, as the company is already in the receiver's hands.

CARPENTERS' STRIKE OVER

The carpenters' strike is over. Peace came with a compromise agreement accepted by both sides at 3:30 this morning, after a 13-hour conference between representatives of carpenters and contractors.

The carpenters will sign a 3-year scale with the members of the Carpenter Contractors' ass'n. They will receive a flat salary of 70 cents for the three years, instead of 70 for the first, 72½ for the second and 75 for the third year, as was asked. The agreement will end May 31, 1918.

Details of the settlement have not been made public, but a member of the committee and an officer of the council did not deny today that the uniform agreement would be accepted. At least it is known that the carpenters conceded that the clause against restriction of the source of materials shall stand.

The lathers, sheet metal workers and painters still have differences with their employers. These unions seem to have the whip hand in their arguments.

PERHAPS

"While the soldier may shudder at the thought of the shells which fall around him, the actor has a great fear. What he fears most are the yolks!

SOME RECORD, THIS! THIRTY YEARS ON ONE JOB

Mrs. R. C. Spear

Barberton, O.—Mrs. R. C. Spear celebrated the close of her 30th year as a "lady of the key" the other day by ticking her 900,000th message off on the wire.

Mrs. Spear began tapping the key when she was 14 years of age. She has made dots and dashes enough to string a Morse code belt half around the world. She has filled important railroad positions and has held several "man sized" jobs with success.

ANOTHER SUFFERER

"Poor Smith is one of the worst European war sufferers I know of."

"How's that? He hasn't been near Europe."

"I know it, but while he was away last week his wife sent all his clothes to the Belgians."

Investigators in Bavaria have found that the more bread school children eat the better the condition of their teeth!
